Minimum Width Test

This tests columns with non-wrappable content.

Problem Case: Short header, long non-wrapping content

ID	Code	Configuration	Notes
1	ABC123XYZ789	default_config_name	This is a long note that should wrap nicely across multiple lines.
2	LONGCODEHERE	alternate_mode	Another long description with lots of text that wraps.
3	XY	very_long_configuration_identifier	Shorter note.

Problem Case: Dates and numbers

#	Date	Amount	Description
1	2024-01-15	$1,234,567.89	Payment received for services rendered during the previous quarter.
2	2024-12-31	$999.00	Small payment.

Problem Case: URLs in narrow column

Type	URL	Status
API	https://api.example.com/v1	Active
Web	https://www.verylongdomainname.com/path/to/resource	Inactive
